Education

02/2017 - 03/2021 (Thesis Defended) **ETH Zürich** *(ETH)* Zürich, CH
- Ph.D Candidate, **Electrochemistry** (spec. **Renewable Energy)**
- Thesis: Subsecond *Operando* X-ray CT of Liquid Water in Polymer Electrolyte Fuel Cells

10/2015 - 10/2016 **Technische Universität München** *(TUM)* München, DE
- M.Sc, Geomaterials (sepc. Polymers), GPA 1.43/1.0, Thesis 1.3/1.0

09/2014 - 08/2015 **Université de Rennes 1** *(UR1)* Rennes, FR
- Maîtrise & M.Sc., **Physics**, GPA 15.6/20, Internship 18.2/20

09/2009 - 06/2013 **Beijing Jiaotong University** *(BJTU)* Beijing, CN
- B.Sc, Materials Chemistry (spec. **Solar Cells**/**Batteries**), GPA 90.3/100 (major), Thesis (A)

Work Experience & Internships

12/2016 - 02/2021 **Paul Scherrer Institut** *(PSI)* Villigen, CH
Doctoral Student | Research: Energy - Renewable Energy - **Hydrogen & Fuel Cells**
- Investigated *operando* water saturation, water transport mechanism and water evaporation in porous GDL/MPL materials of PEM Fuel Cells via 4D X-ray CT imaging.
- Reconstructed time-series 3D water distribution in the fuel cell and evaluated the gas diffusion properties of GDL/MPL for an improved PEFC water management strategy.

12/2015 - 06/2016 **Infineon Technologies AG** *(INF)* München, DE
Working Student | Industry: Manufacturing - Electronics - Semiconductor
- Evaluated chip quality and reliability at failure test station independently; specialized in failure analysis of Infineon developed semiconductor chips via thermal and electrical stress processes.
- Summarized and analyzed the electronic behavior data of stressed Infineon chips, severed as a quality control process for performance optimizations.

10/2015 - 09/2016 **Technische Universität München** *(TUM)* München, DE
Thesis Student | Research: Materials - Functional Materials - Magnetic Sensor Device
- Spray-coated nanostructured iron oxide/copolymer nanocomposite thin-film and monitored its thermo-responsive structure formation and magnetic properties for sensor application.
- Developed humidity circulation chamber system within in-house SAXS instrumentation for physical dynamic studies of diblock copolymer system.

05/2015 - 07/2015 **European XFEL GmbH** *(XFEL)* Hamburg, DE
Summer Intern | Industry: Manufacturing - Mechanics - Mechanical Assembly
- Designed mechanical test-stand for the split and delay line (SDL) of the ultra-fast X-ray pulse at the European XFEL considering technical requirements under ultra-high vacuum.
- Assembled the test-stand for the SDL and tested its vacuum degree, furthermore fabricated electronic cables and tested the parasitic motion of linear translation stage based on python.

Project Management

03/2017 - 02/2019 **Toyota Motor Europe & PSI** / *Technical Transfer Co-Project* Bruxelles, BE
Collaborator | Industry: Manufacturing - Automotive - **Hydrogen & Fuel Cell Vehicle**
- Collaborated with Toyota in fuel cell vehicle materials development and in charge of project experiments for investigation of novel MPL materials and water transport mode in fuel cell.
- Involved in Technology and Data Transfer Project between Toyota R&D and PSI; published co-papers in fuel cell water management (JPS 2021) and GDL/MPL investigation (JPS 2019)

12/2016 - 11/2020 **Swiss Light Source & PSI** / *Swiss National Science Co-Project* Villigen, CH
Collaborator | Research: Instrumental - 3D Diagnostics - Computed Tomography (CT)
- Developed continuous fast X-ray CT imaging system for fuel cell dynamics; advanced big data (>20 TB) processing pipeline based on Python scripts and Linux Slurm load manager.
- Managed experimental strategies through 4 years SNF funded project and wrote proposals/reports for beamtime applications; results were published in 3 papers and 2 in progress.

08/2015 - 09/2015 **École des Ponts ParisTech** / *Haihe River Committee Co-project* Paris, FR

Modeling Trainee | Industry: Environment - Water Management - Pollution Forecast

- Trained on the cyanobacteria matlab modelling system developed by LEESU and aimed to apply it into controlling system of lakes and rivers in China via technology transfer.
- Calibrated parameters in the specific models by using local meteorological data and predicted the cyanobacterial blooms for Yuqiao reservoir in Tianjin, China.

Publications & Patents

2013 Prof. H. Zhang, ***H. Xu**. Gas-liquid magnetic separation device. CN102441490B, China.

2012 X. Qi, H. Jiang, ***H. Xu**. UV-photocatalytic food cleaning device. CN202311136U, China.

Extracurricular Activities

2019-21 **Part-time MBA**: Quantic School of Business, Washington DC (distance learning)

2020 **Intern Supervision**: Mentor for PSI Intern in CT Image Processing

2020 **EPFL Workshop**: Attendant at EPFL Applied Machine Learning Days

2020 **Technology and Innovation Management**: Course at D-MTEC ETH Zürich

2019 **Norvatis Hackathon**: Pharma Data Science Prediction at Norvatis Leadership Forum

2017-19 **Teaching Assistant**: Renewable Energy Technology II - ETH Master Course

2017 **Medical Imaging Training**: MRI/CT Training at University Hospital Zurich

2010 **Volunteer Tutor**: Volunteered as School Tutor for Jishuitan Elementary School in Beijing

Honors & Awards

2019 **ECS Travel Grant**, US Army Research Office & ECS (USD 1'500), Atlanta, USA.

2018 **Poster Prize Award**, ModVal 2018 Conference Committee, Aarau, Switzerland.

2015 **Erasmus+ Scholarship**, European Education & Culture Executive Agency (EUR 2'640).

2012 **National Bronze**, "Challenge Cup" Business Plan Competition, Ministry of Edu. of China.

2010 **Excellent Member of Student Union**, Beijing Jiaotong University, China.

Technical Skills

Certificate	**IBM Data Science Professional Certificate** (2019)
Programming	**Python** (Image & Data Analysis); Matlab; SQL; Linux; Slurm Load Manager
Software	3DSlicer; Fiji/ImageJ; GeoDict; Origin; LaTeX; Adobe PS; Final Cut Pro; Inventor; CAD
Instrumental	X-ray CT, XRD, SAXS, GISAXS, UV Spectroscopy, Electrochemical Analysis
Mater. Processing	Hydrothermal Synthesis, Spray Coating, Solvent Casting
Mechanical	Humidity Chamber Design, Slip Ring Devel., Gas Regulation, Testbench Construction

Languages & Hobbies

EU Standard	**English (fluent)**, Chinese (native), German (in progress, A2-B1), French (basic, A2)
Hobbies	Photography, Video Editing, Hiking, Travelling, Table Tennis, Chinese Cuisines

Reference Letters

2021	Prof. Dr. Thomas J. Schmidt, ETH Zürich	[Letter]
2020	Dr. Jens Eller, Scientist, Paul Scherrer Institut	[Letter]
2016	Mr. Martin Polzer, Director Quality REL, Infineon Technologies AG	[Cert.]
2016	Dr. Ezzeldin Metwalli, Scientist, Technical University of Munich	[Letter]
2015	Dr. Anders Madsen, Group Leader, European XFEL GmbH	[Letter]
2015	Prof. Dr. Philippe Rabiller, Université de Rennes 1	[Letter]

Prof. Dr. Dr. h.c. mult. S. M. Springman

Zürich, 15. März 2021

Provisorische Bestätigung für das Doktorat

für **Herrn Hong Xu**
geboren am 5. April 1993

Wir bestätigen hiermit, dass die Departementskonferenz vom 1. März 2021 den Antrag auf Erteilung des Doktordiploms an Herrn Hong Xu aufgrund seiner Doktorarbeit und der bestandenen mündlichen Doktorprüfung vom 6. Januar 2021 genehmigt hat. Der Doktortitel darf erst nach Ablieferung der Dissertations-Pflichtexemplare bei der Doktoratsadministration geführt werden.

Preliminary confirmation of the doctoral degree

for **Mr Hong Xu**
born on 5 April 1993

This is to certify that on 1 March 2021 the Department Conference approved the conferral of a doctoral degree on Mr Hong Xu based on his thesis and the oral examination held and successfully passed on 6 January 2021. Doctoral graduates may only use the doctoral title upon submission of their deposit copies to the Doctoral Administration Office.
